NAMMA GRAMA NAYAKA

Karnataka's Ward-Led Grama Swaraj Movement

**Empowering Grama Panchayat Through
Stronger Ward Sabhas and Gram Sabhas**

**The Future of Karnataka Development
Starts at the Ward Level**

Every village has dreams.

Every community has potential.

Every Ward has people, resources, traditions, skills, and aspirations.

The question is — who will bring them together and transform these possibilities into progress?

The answer is: an empowered Ward Sabha led by empowered Ward Members.

Namma Grama Nayaka is building a movement to strengthen grassroots governance by working with **1 lakh+ aspiring Ward Members**, enabling them to become the leaders of development, participation, and economic growth in their communities.

IMAGINE A STRONGER GRAMA PANCHAYAT

A Grama Panchayat where Ward Sabha and Gram Sabha becomes a platform for participative and inclusive government.

Every citizen gets a voice in shaping priorities

Local resources create local opportunities

Villages move towards economic independence

Communities actively participate in their own growth

**300–500
ADULT CITIZENS
in each Ward
Sabha**

Each **Ward Sabha** brings together around 300–500 adult citizens, creating the perfect foundation for meaningful conversations, collective decisions, and community-led action.

This is not just about governance.

This is about creating self-governed and self-reliant villages through people-powered development.

The Ward Member: The Development Leader of Tomorrow

A Ward Member is not only a bridge
between citizens and systems.

A Ward Member is:

- ✓ A community mobiliser
- ✓ A development planner
- ✓ A local problem solver
- ✓ A catalyst for economic opportunities
- ✓ A leader who helps build a self-governed village

Through Empower Panchayat's structured approach, **Ward Members** will gain the knowledge, tools, and platforms required to unlock the potential of their communities.

10 Modules for Transformation

01

Basics of Grama Panchayat: The Power You Already Have

Decode the authority of a Grama Panchayat and Ward member — funds, schemes, decision-making, the President & Vice President, committees, duties. Understand the real power behind the position.

02

Know Your Ward and Gram Panchayat: Your Battlefield + Your Opportunity

Understand your Ward in depth—geography, infrastructure, SHGs, schools, health, water, agriculture—to design a grounded vision.

03

Know Your Voters: Your Community Intelligence System

Build your own voter database, map households, identify issues, segment communities, and create micro-level strategies.

04

Setting Ward Sabha Agendas: Become the Administrator, Not Only a Politician

Design meaningful Ward Sabha agendas rooted in real village issues like water, waste, livelihoods, and social development.

05

Digital Ward Sabha: Your First Public Leadership Demo

Conduct your first Digital Ward Sabha—build visibility, confidence, and trust within your community.

06

Implement the Solution: Show Results Before Elections

Pick one real issue and solve it with community participation—demonstrating that you are a doer, not just a candidate.

07

Raise ₹10K for Your Campaign: Transparent + Smart Funding

Mobilize local support ethically, manage your campaign budget, and run an effective campaign without overspending.

08

Make Your Manifesto: A Document People Respect

Create a manifesto based on real data from Ward Sabhas and actual community needs—not generic promises.

09

Digital Gram Sabha: Showcase Your Work + Build Momentum

Work with all the ward members, create a panchayat manifesto by combining the ward manifestos, show the strength of the team, and build strong community backing before elections.

10

Campaign + Candidature Filing: Enter the Race Like a Professional

Execute your campaign with structure—door-to-door outreach, personal touch, supporter networks, and nomination filing.
